This duplex is located in a small building with only two apartments, in the most beautiful part of Senjak. Within easy reach of the commercial area of the neighborhood, with shops, restaurants and banks. Also, in the immediate surroundings are three international schools. The apartment occupies the first floor and loft. On the lower level is a spacious living room with exit to a large balcony. Behind is the kitchen fully equipped and separated from the dining room with a bar. The bathroom is spacious, with a jacuzzi tub. This part has access to another balcony. Upstairs are three bedrooms, one with a balcony. Further is the dressing room with wardrobes, while the other bedrooms are below. One of them has a gallery of about 10 m². The bathroom on this level has a shower. The interior is decorated with warm colors, with dark parquet flooring and decoration in the form of stone, modern lighting and details of plaster. All rooms are air conditioned. Extremely quiet and tucked away place, for recommendation, especially for families with children.
