Excellent real estate within the villa in Vracar, with a total of two apartments. Each apartment is spread over two levels and has its own independent entrance. The house is secluded from the street and has a nicely landscaped yard. The first level of the apartment has a spacious living room, a separate kitchen with a pantry, a dining room connected by a door to the kitchen, a toilet and a laundry room with an anteroom with closets, while the sleeping area is separated by a door and consists of two bedrooms with one bathroom. The upper level is under slopes, and has two bedrooms and mutual bathroom with a shower between them. The apartment is very bright, pleasant, with two-side orientation. There is air conditioning unit in every room. It is suitable for family life, but for a business purpose as well.
