Excellent small apartment located in a new complex of buildings at the beginning of Jajinci. The building is long, with several entrances, only three floors high and has an elevator. Garages are located in the basement. The building was built to a very high standard, excellent materials were used. The layout is practical. It has a separate bedroom, while the living room is integrated with the kitchen and dining room and has access to the terrace. The bathroom has a shower cabin. The kitchen is currently not equipped, but it can be discussed.
