Excellent office space in the city center. Busy street with numerous commercial shops, close to public transport stations for all parts of the city. A location with smaller buildings and residential houses. The space is a smaller, separate house, which can be reached through a well maintained entrance through the building backyard. Covered from the city noise, the house has two levels, each is an open space, a toilet on the lower level and a bathroom with a shower on the upper level. Heating is via two inverter air conditioners on each level. PVC carpentry, quality ceramic floor, lighting. Both levels overlook the landscaped yard from where the facility is accessed. Attractive space, rarely offered with an excellent location.
